Beauty treatments

Power cosmetics – Phytobiodermie

Phytobiodermie – the Yin/Yang holistic cosmetics in accordance with the 5 Chinese elements.

Phytodermie has the right solution for every skin problem! This energetic cosmetic system does not merely combat the symptoms, but also the cause. The wisdom of Yin & Yang regarding the 5 Chinese elements of wood – fire – earth – metal – water effectively tackles the root cause of the problems!

When the body's energy flows get out of kilter as a result of factors such as the weather, lack of exercise, diet and mood, this is expressed in the form of both cosmetic and figure problems in the reflex zones of the face and body. Moreover, certain "typical" weaknesses are attributed to each element. Phytodermie tackles the root cause of the problems since both cause and effect are treated.

This means, for example, that applying a reflex zone mask of coloured clay to the face harmonises energies: redness and swellings are reduced, pale areas are better supplied with blood, wrinkles are smoothed, acne and areas with impurities are detoxed and cell regeneration undergoes a general stimulation.

The targeted use of clay, essential oils, algae, mineral salts, cereal oils and especially the treatments with coloured products have a balancing effect and help to get cosmetic problems under control again.

The element of wood:

spring (5 Feb. – 17 April); greasy skin, blackheads, milia, pigmentation marks, greasy scalp & hair, saddlebags and cellulite on the outer thighs and energy circulation problems

The element of fire:

summer (6 May – 19 July); redness, sensitive skin, hot flushes and transpiration on the face, scalp and décolleté, couperose, scalp redness, grease production on the sides of the head, spider veins and arterial blood circulation problems

The element of earth:

between the seasons (18 Jan. – 4 Feb. / 18 April – 5 May / 20 July – 6 Aug. / 21 Oct. – 7 Nov.); impurities, scaly skin, acne, psoriasis, large pores, greasy, flaky and unclean scalp, cellulite, weight gain around the middle of the body and lymph circulation problems

The element of metal:

autumn (7 Aug. – 20 Oct.); dry skin, pale skin with poor circulation, dry scalp and hair, heavy legs, pronounced veins, venous blood circulation problems

The element of water:

winter (8 Nov. – 17 Jan.); lack of vitality, lack of tone, sallow skin, wrinkles, weak hair, hair loss
